About Nilaveli Beach Hotel

Nilaveli Beach Hotel, about 10km north of **Trincomalee** is one of the few resort hotels on the **Eastern Coast** of **Sri Lanka**. Here the beaches, scenery, the sea and cultural attractions are diverse from the more frequented areas along the **South Western Coast** of **Sri Lanka**.

The resort is situated a few steps from its own secluded beach approached through rows of trees, leading onto endless white coral sand shores that stretch into the distance.

The **East Coast Beaches** have fine white coral sand, just like the **Maldives** and are some of the most beautiful in the whole of **Asia**. They are at their best from **April** to **October**, but **Nilaveli** offers a striking all-year-round addition to any tour of the **Cultural Triangle**.

Interesting places to visit are **Pigeon Island**, known to be the breeding site for **Blue Rock Pigeon** and a popular haunt for snorkellers since the shoreline of the island contains one of the few areas of live coral on the **East Coast**.

Trincomalee town, praised by **Horatio Nelson** as possessing the finest natural harbour in the world, is within easy reach. Here you can visit the old **British Fort Frederic** and the **Hindu Temple** at **Swami Rock**.

Trincomalee Bay is an ideal venue for whale watching as 12 species of this mammal such as the **Common Blue Whale**, **Bryde's Whale** and **Sperm Whale** to mention a few are frequently to be seen.
