

The Wallawwa Courtyard At Night

The Wallawwa, Near Colombo Airport

Deluxe Boutique Hotel

14 RM
Near Colombo Airport

About The Wallawwa

Nestled amidst a two acre coconut estate and lush tropical gardens, **The Wallawwa** is a luxurious boutique hotel situated just 15 minutes from the **International Airport**. The sandy beaches of **Negombo** are just 30 minutes away. The **Wallawwa** is easily accessible yet entirely secluded - a luxury private hideaway.

A 'wallawwa' is typically an old manor house with architectural features of columns, courtyards and verandahs. It has an interesting history that dates back to the mid 17th century when it was owned by a head chieftain of **Galle**. This colonial bungalow has been lovingly restored maintaining its old world charm with a blend of luxurious comforts and stylish design.

Bedroom At The Wallawwa

Rooms

The Wallawwa has 14 bedrooms – 10 **Garden Suites** and four **Wallawwa Bedrooms**. All bedrooms boast **Balinese** four-poster beds, wifi internet access, widescreen satellite TV, and terrazzo-lined en-suite bathrooms with rainshowers. **Garden Suites** are more spacious and benefit from their own private verandah whilst the **Wallawwa Bedrooms** are ideal for guests looking for a pre or post flight stopover. Interconnecting rooms are also available upon request.

Restaurant At The Wallawwa

Fine Dining

The restaurant is situated on the front verandah overlooking the croquet lawn and serves exquisite **Asian Fusion** cuisine. Meals are also served in the gardens or in the privacy of your own bedroom.

Facilities

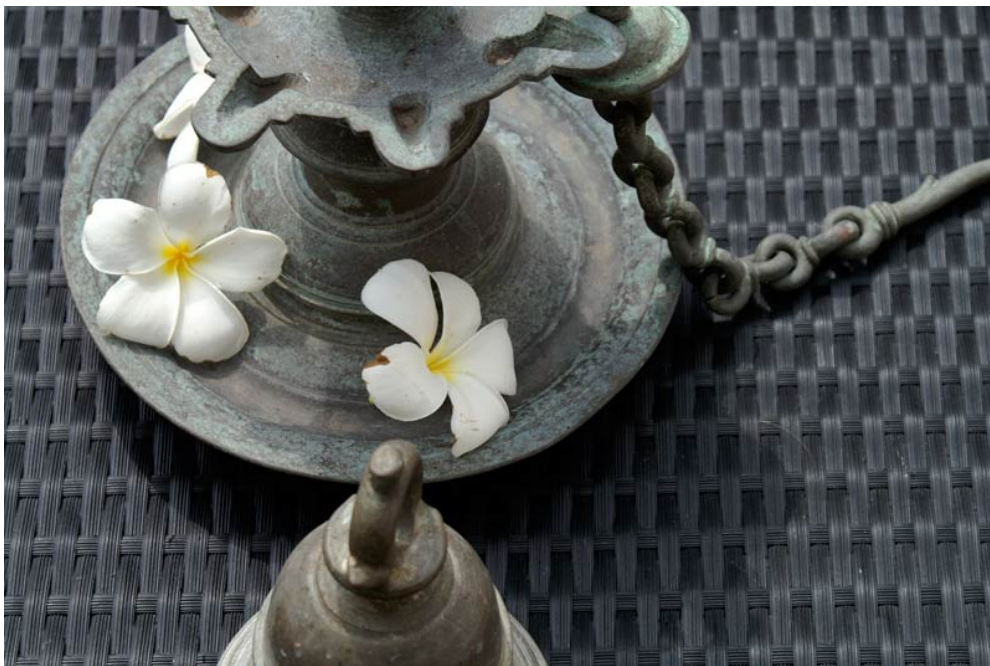

The swimming pool is set amidst the landscaped gardens. The **Z Spa** with four treatment rooms offers an array of relaxing massages and therapies. There is a **Library** full of interesting titles on **Sri Lankan** and International philosophy, politics, culture and heritage. **The Wallawwa** provides a personalised service with a team of butlers to cater for your every whim.

Activities

Explore the **Muthurajawella** wetlands situated just 10 minutes from **The Wallawwa**. These wetlands cover an area of about 6,000 hectares inclusive of the **Negombo** lagoon. The daily high tide brings in seawater from the ocean into the wetland. Continuous mixing of these two waters over thousands of years, has led to a brackish, integrated coastal ecosystem that is biologically diverse and teeming with life. Numerous species of birds, butterflies and fish, some of which are endemic, are found in this habitat. Crocodiles, monitor lizards, and python, are found here.
